## SUMMARY

Results-driven software engineer skilled in Shopify, checkout extensions, Remix, Next.js, and Node.js, delivering high-performance, innovative e-commerce solutions.

## EXPERIENCE

**Software Engineer**, 03/2024 - Current

**Tech Mahindra** - Kolkata, India

- Led development of luxury Shopify stores, delivering customized e-commerce experiences for brands.
- Built custom Shopify apps using Shopify CLI, implementing product review Remix App with seamless with Shopify Flow integration.
- Implemented logic for free gifts based on cart value and product combinations.
- Developed dynamic sample allocation system adjusting in real-time based on cart quantity.
- Created custom Checkout UI Extensions and Branding using GraphQL-based Shopify App.
- Extended default themes with Liquid templates and JavaScript to enhance functionality.
- Optimized UI/UX design for conversion and smooth navigation across all devices.
- Conducted rigorous cross-browser testing, ensuring responsive designs across all screen sizes.
- Supported additional projects with theme customizations, bug fixes, and performance updates.

**MERN Developer**, 11/2023 - 02/2025

**EHS Prints** - Remote, India

- Designed and developed a client-designer interaction workflow, enabling clients to collaborate with designers more effectively, in real time.
- Built an interactive instruction form, allowing clients to submit design briefs and visualize their instructions through a responsive UI, improving clarity, and reducing back-and-forth revisions.
- Worked with the **MERN stack** (MongoDB, Express, React.js, Node.js) to build a scalable and maintainable application structure.
