OBJECTIVE

Results-driven Front-End Software Engineer specializing in the Shopify ecosystem — building high-performance with HTML5, CSS3, JavaScript, TypeScript, React, Remix, and shipping production (Theme App Extensions with Liquid, Checkout UI Extensions, App Bridge, Polaris) backed by GraphQL/REST Admin APIs for seamless integrations and optimized merchant shopper experiences.

EXPERIENCE

TECH MAHINDRA | SOFTWARE ENGINEER

March 2024 – Current | Kolkata, India

- Contributed to the **Metamark Stacklet** Shopify app, building **Checkout UI Extensions** (invoices customer UI) and **Payment Customization** extensions using **React**, **Shopify App Bridge**, **Polaris**, **GraphQL Admin API**, and **REST APIs** on a Node/Express backend.
- Built the **Product Reviews** Shopify app — a **Theme App Extension** with reusable Liquid blocks/snippets (average rating, review list, media reviews, UGC, pagination, modals) and a **React-Router / Polaris** admin powered by **Prisma**, **GraphQL (Admin API)**, **Zustand**, and **Chart.js** for analytics.
- Translated UI designs into **responsive web applications** using HTML5, CSS3, JavaScript, and Liquid for Shopify storefronts.
- Built **interactive, high-performance UIs** with clean, maintainable code for seamless web and mobile experiences.
- Designed **responsive prototypes and reusable UI components**, iterating based on user and business needs.
- Implemented **client-side logic** for dynamic cart features like free gifts and real-time sample allocation.
- Integrated **GraphQL APIs** for Checkout UI Extensions and advanced storefront customization.
- Enhanced themes using modern frontend practices, ensuring **performance, scalability, and cross-browser compatibility**.
- Collaborated on **UI/UX optimization, testing, and debugging**, improving usability and conversion rates.

EHS PRINTS | MERN DEVELOPER

November 2023 – February 2025 | Remote, India

- Implemented new features** to enhance the functionality and overall user experience of the company's web platform.
- Designed and developed a client-designer interaction workflow, enabling clients to collaborate with designers more effectively, in real time.
- Built an interactive instruction form, allowing clients to submit design briefs and visualize their instructions through a responsive UI, improving clarity, and reducing back-and-forth revisions.
- Worked with the **MERN stack** (MongoDB, Express, React.js, Node.js) to build a scalable and maintainable application structure.
